2017 Q2 Results

August 11, 2017

This presentation contains “forward looking statements” within the meaning of the United States private securities litigation reform act of 1995 and “forward looking information” within the meaning of applicable Canadian securities legislation. Such forward-looking statements and information here include but are not limited to statements regarding China Gold International Resources anticipated future performance, including precious metals and base metals production, reserves and resources, timing and expenditures to expand mine and plant capacities and develop new mines, metal grades and recoveries, cash costs and capital expenditures. Forward looking statements or information involve known and unknown risks, uncertainties and other factors that may cause the actual results, level of activity, performance or achievements of China Gold International Resources and its operations to be materially different from those expressed or implied by such statements. Such factors include, among others: fluctuations in metal prices and currency markets; changes in legislation, policies, taxation, regulations; political or economic developments; management, operating or technical risks, hazards or difficulties in exploration, development and mining activities; inadequate insurance, or inability to obtain insurance; availability of and costs associated with mining inputs and labor; the speculative nature of mineral exploration and development, diminishing quantities or grades of mineral reserves as properties are mined; the ability to successfully integrate acquisitions; risks in obtaining necessary licenses and permits. Although the Company has attempted to identify important factors that could cause actual results to differ materially from those contained in forward looking statements or information, there may be other factors that cause results to be materially different from those anticipated, described, estimated, assessed or intended. There can be no assurance that any forward looking statements or information will prove to be accurate as actual results and future events could differ materially from those anticipated in such statements or information. Accordingly, readers should not place un due reliance on forward looking statements or information. the company does not intend to, and does not assume any obligation to up date such forward looking statements or information, other than as required by applicable law. We Seek Safe Harbor.

Q2 2017 HIGHLIGHTS

Three months ended June 30, 2017

- ❑ Revenue increased by 40% to US\$97.9 million.
- ❑ Mine operating earnings increased by 114% to US\$25 million.
- ❑ Net profit after income taxes increased to US\$20.6 million from a net loss of US\$7.4 million for the same period in 2016.
- ❑ The cash production cost of gold decreased by approximately 5% from US\$695 per ounce to US\$659 due to lower waste removing removal costs.

Six months ended June 30, 2017

- ❑ Revenue increased by 33% to US\$180 million.
- ❑ Mine operating earnings increased by 128% to US\$44.1 million.
- ❑ Net profit after income taxes increased to US\$27.0 million from a net loss of US\$10.9 million.
- ❑ Copper production from the Jiamia Mine increased by 59% to 31.97 million pounds.
- ❑ Cash production cost and total production cost of copper per pound decreased, mainly because of the higher ore grade mined during the period.

Item	Q2 ended June 30, 2017	Q2 ended June 30, 2016	Year ended December 31, 2016
Revenues (MM USD)	\$97.9	\$69.9	\$339

Note: The Mineral Resources and Reserve as of December 31, 2016

- Expansion target: increase processing capacity from 6,000 tpd to 50,000 tpd
- Commissioning of Series I of Jiama Phase II Expansion commenced December 1, 2016
- Processing facilities completed, underground engineering is ongoing

COOPER PRICE REBOUNDS EARLIER THAN ANTICIPATED

2016-2017 Copper Performance

Rebound drivers

- In August 2017 Copper price surges to 3-year high as a demand from China is recovering
- U.S. infrastructure plans will boost demand and the price of copper
- A reduction in copper stocks in LME warehouses indicates a tighter market
- Other potential issues on the supply side

CSH GOLD MINE

– ONE OF CHINA'S LARGEST GOLD MINES

- ❖ Located in Inner Mongolia of China, ~ 210km northwest of the city of Baotou
- ❖ Principal product: Gold dore bars with silver as a by-product
- ❖ Well-established basic infrastructure:
 - excellent access to roads
 - sufficient power
 - sufficient water and local labor force
- ❖ Large-scale open pit, heap leach

CSH Mine Resources

Resources	Tonnage (mt)	Grade (g/t)	Gold Content (Moz)
Measured	26.72	0.67	0.58
Indicated	136.59	0.61	2.68
Total M&I	163.31	0.62	3.26
