Forward Looking Statements

This presentation contains “forward looking statements” within the meaning of the United States private securities litigation reform act of 1995 and “forward looking information” within the meaning of applicable Canadian securities legislation. Such forward-looking statements and information here include but are not limited to statements regarding China Gold International Resources anticipated future performance, including precious metals and base metals production, reserves and resources, timing and expenditures to expand mine and plant capacities and develop new mines, metal grades and recoveries, cash costs and capital expenditures. Forward looking statements or information involve known and unknown risks, uncertainties and other factors that may cause the actual results, level of activity, performance or achievements of China Gold International Resources and its operations to be materially different from those expressed or implied by such statements. Such factors include, among others: fluctuations in metal prices and currency markets; changes in legislation, policies, taxation, regulations; political or economic developments; management, operating or technical risks, hazards or difficulties in exploration, development and mining activities; inadequate insurance, or inability to obtain insurance; availability of and costs associated with mining inputs and labor; the speculative nature of mineral exploration and development, diminishing quantities or grades of mineral reserves as properties are mined; the ability to successfully integrate acquisitions; risks in obtaining necessary licenses and permits. Although the Company has attempted to identify important factors that could cause actual results to differ materially from those contained in forward looking statements or information, there may be other factors that cause results to be materially different from those anticipated, described, estimated, assessed or intended. There can be no assurance that any forward looking statements or information will prove to be accurate as actual results and future events could differ materially from those anticipated in such statements or information. Accordingly, readers should not place undue reliance on forward looking statements or information. The company does not intend to, and does not assume any obligation to update such forward looking statements or information, other than as required by applicable law. We Seek Safe Harbor.

Why Invest in China Gold International

1

UNIQUE CORPORATE MODEL

Strong support from controlling shareholder: China National Gold Group Co.,Ltd.

2

RAPID GROWTH, CONSISTENT PROFITABILITY

10th year of increasing production , 10 years of consistent operational profitability
Series II of Jiama mine phase II expansion achieved commercial production ahead of schedule

3

EFFECTIVE COST MANAGEMENT

Continue to reduce overall cash costs

4

INVESTMENT GRADE CREDIT RATING

August 2017: S&P reaffirmed the company's BBB- long-term corporate credit rating

5

ABILITY TO RAISE SIZABLE FINANCING AT LOW COST

July 2017: Second time successfully issued US\$500 MM Bond

6

UNIQUE CAPITAL MARKET STRUCTURE

Dual listed in TSX and HKEX, eligible trading under the Shenzhen-Hong Kong Stock Connect

7

HIGH STANDARD OF CSR AND HSE

Capital Structure

STOCK PERFORMANCE

TSX: CGG (Nov/15/17-Nov/15/18)

1. As of November 15, 2018
2. 2018 Q3 data

2018 Q3 Production Overview

Copper

- Copper production increased by 156% to 16,515 tonnes (≈36.4 million pounds) from 6,439 tonnes (≈ 14.2 million pounds) compared to 2017 Q3.

Gold

- Total gold production was 50,860 ounces
- Gold production from the CSH Mine decreased by 28% to 33,468 ounces from 46,621 ounces for the same period in 2017. (The decrease in gold production is attributed to lower volumes of ore mined during the 2018 period in accordance to the revised mining plan in relation to the slope stability issue.)
- Gold production of 17,392 ounces from the Jiama Mine, increased by 42.6% compared to 2017 Q3.

2018 Q3 Financial Overview

- Revenue increased to US\$ 158.8 million (increased by 61%) compared to 2017 Q3
- Mine operating earnings was US\$ 35.1 million (increased by 30%)
- Net profit after income taxes was (-US\$4.6 million), mainly driven by foreign exchange loss of US\$11.0 million.

	Q3 Ended Sep 30, 2018	Q2 Ended June 30, 2018	Q3 Ended Sep 30, 2017
Revenues (MM USD\$)	\$158.84	\$142.09	\$98.54
Mine operating earning (MM US\$)	\$35.10	\$35.79	\$26.98
Net Profit (MM US\$)	(\$4.59)	\$0.39	\$17.41
Net Operating Cash Flow (MM US\$)	\$53.56	\$40.26	\$54.81
Earning per share (US\$)	(1.23cents)	0.05 cents	4.33 cents
Cash Costs – CSH (US\$/oz)	\$805	\$806	\$657
Cash Costs – Jiamá (after by-product credit) (US\$/lb)	1.11	1.37	0.99
Gold produced by CSH (oz)	33,468	33,880	46,621
Copper produced by Jiamá (Mlbs)	36.41	30.29	14.20

2018 Q3 Performance Highlights Summary

- Copper production from the Jiama Mine significantly increased to 36.4 Mlb from 14.2 Mlb compared to Q3 2017.
- Net cash from operating activities was US\$53.56 million
- The company's EBITA increased by 14.54% to \$145.68 million from \$127.19 million compared to 2017 Q3.

Note: The Mineral Resources and Reserve data as of December 31, 2017, under NI 43-101

Major Milestone at Jiama Mine

Commercial production on Series II of Jiama Expansion

- Jiama Phase II expansion has achieved commercial production and steadily reaching its full design mineral processing capacity
- Copper production for the full year of 2018 is expected to be more than 10% higher than the 100 million pounds forecasted at the beginning of the year

We have been pleased to see that Jiama is on track to exceed its 2018 production guidance , Jiama Phase II will reach its full capacity smoothly and create more value for our shareholders and local community.”

Mr. Liangyou Jiang , CEO

CSH Gold Mine

One of China's largest gold mines

COMMODITIES

Gold dore with silver by-product

LOCATION

210km NW of Baotou, Inner Mongolia

MINE OPERATION

Large-scale open pit, heap leach

PROCESSING CAPACITY

60,000 tpd

- Well-established infrastructure with excellent access to roads and sufficient supplies of power, water and local labor
- Open pit re-design for optimization is underway

CSH MINE RESOURCES

Resources	Tonnage (Mt)	Grade (g/t)	Gold Content (Moz)
Measured	16.25	0.65	0.34
Indicated	128.77	0.61	2.54
Total M&I	145.01	0.62	2.88
Inferred	81.54	0.51	1.35

CSH MINE RESERVES

Reserves	Tonnage (Mt)	Grade (g/t)	Gold Content (Moz)
Proven	15.41	0.66	0.33
Probable	85.50	0.64	1.77
Total	100.90	0.65	2.10

Note: Northeast and Southwest pits combined at December 31, 2017 under NI 43-101

- In H2 2017, a series of wall failures on one side of the pit at the CSH Mine led short term interruptions of mining activities. The Company is developing remediation plans to address the slope stability issues. 2018 production estimates have been reduced accordingly.

Supported by China's Largest Gold Producer

- China Gold's inclusion as a constituent stock in the HIS demonstrates recognition of the company's market capital, stock liquidity, business performance and financial position.

Effective Sep.10, 2018, China Gold is newly added to:

- Hang Seng Stock Connect Hong Kong Index
- Hang Seng Stock Connect Hong Kong MidCap & SmallCap Index
- Hang Seng Stock Connect Hong Kong SmallCap Index
- Hang Seng SCHK Mainland China Companies Index
- Hang Seng SCHK ex-AH Companies Index

Accretive Acquisition Strategy

PROPERTY ACQUISITION CRITERIA

Selective acquisition strategy

Financed through internal funds, capital markets and low-interest loans globally

VALUATION

- Accretive to current shareholders
- Target traded at a deep discount to current asset value

GEOGRAPHY

- Established mining jurisdictions
- Stable political environment

RESOURCES/RESERVES

- Large-scale mines: 3-5MM oz gold; 1MM tonnes copper
- Mine assets with significant exploration potential

TRANSACTION STRUCTURE

- Assets from largest shareholder

METAL

- Gold focus
- Mineral resources with gold and non-ferrous combined

DEVELOPMENT STAGE

- Mines at operating stage with ramp-up plan or near production
- High quality mine assets under development stage

High Standard of CSR and HSE

Achieving sustainable development through corporate social responsibility

- China Gold International has contributed total of US\$124 million (783 million RMB) in the area of corporate social responsibilities since 2010
- Environmental protection
- Support to local schools
- Building rural roads
- Improvement of portable water
- Green mine initiatives

High Standard of CSR and HSE (cont'd)

Actively involving in mining related environmental protection and charitable activities in Canada

- Supporting two environmental protection reaches during mining operation from UBC
 - Treatment of Effluents from Artisanal Gold Mining and Investigation in the Bioavailability of Mercury Cyanide
 - Arsenic release from arsenic-bearing minerals
- Supporting Canadian cancer research since 2011 (added 2 new research projects in 2017)
 - Hematology Research Program
 - Pancreatic Cancer Care Research Program

Company Awards

- 2017** **National Enterprise Management Modernization Innovation Achievements Award** - by China Enterprise Confederation, Enterprise Reform Bureau of SASAC, Industrial Policy Department of Ministry of Industry and Information Technology, and SME Bureau
- 2016** **Outstanding Group of "Twelfth Five-Year Plan" for National Gold Industry on Technology Work** - by China Gold Association
2016 China's Top 10 Producing Mines - by China Gold Association
Outstanding Enterprise in CSR (Corporate Social Responsibility) - by the Government of Inner Mongolia Autonomous Region
Model Family for Employees - by All-China Federation of Trade Union
1 first grade reward, 1 second grade awards and 2 third grade awards for Technology Innovation Achievements - by China Gold Association
- 2015** **CSR (Corporate Social Responsibility) Model Enterprise** - by the Corporate Social Responsibility Research Center of Chinese Academy of Social Sciences
3 second grade awards and 1 third grade awards for Technology Innovation Achievements - by China Gold Association
- 2014** **1 Grand Award, 5 first grade awards, and 3 second grade awards for Technology Innovation Achievements** - by China Gold Association
1 first grade award for Technology Achievements - by China Gold Association
- 2013** **China's Top 10 Major Mineral Exploration Achievements** - by Geological Society of China
- 2012** **National Level Green Mine** - by the Ministry of Land and Resources
Outstanding Award of National Science and Technology Development - by the Ministry of Science and Technology
Project of National "Twelfth Five-Year" Plan for Science & Technology Support - by the Ministry of Science and Technology
Project of National "Twelfth Five-Year" Plan for Non Ferrous Industry - by the Ministry of Industry and Information Technology
- 2011** **First batch of advanced mines in China's development and integration of mineral resources** - by the Ministry of Land and Resources
The Pioneer Worker Banner - by China Federation of Trade Unions

Experienced Board and Management Team

Top management of China Gold International

2018 Outlook

- 2018 Copper production is expected to be more than 10% higher than the 100 million pounds forecasted.
- 2018 Gold production is expected to be more than 10% higher than the 160,000 ounces forecasted.
- Continuing work on potential acquisition targets.
