A Sustainable Growing Mining Company The Best Results In History

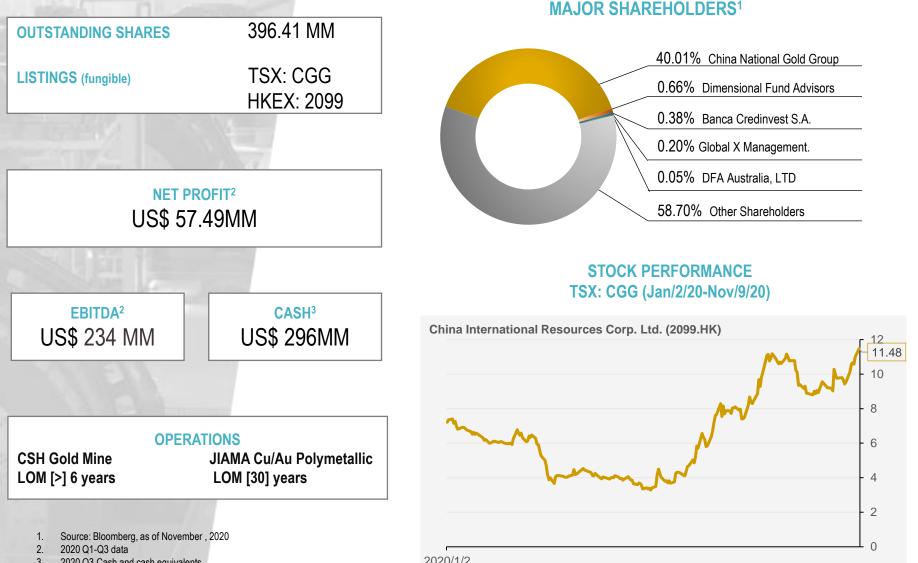

TSX: CGG | HKEX: 2099 November 2020

Forward Looking Statements

This presentation contains "forward looking statements" within the meaning of the United States private securities litigation reform act of 1995 and "forward looking information" within the meaning of applicable Canadian securities legislation. Such forward-looking statements and information here include but are not limited to statements regarding China Gold International Resources anticipated future performance, including precious metals and base metals production, reserves and resources, timing and expenditures to expand mine and plant capacities and develop new mines, metal grades and recoveries, cash costs and capital expenditures. Forward looking statements or information involve known and unknown risks, uncertainties and other factors that may cause the actual results, level of activity, performance or achievements of China Gold International Resources and its operations to be materially different from those expressed or implied by such statements. Such factors include, among others: fluctuations in metal prices and currency markets; changes in legislation, policies, taxation, regulations; political or economic developments; management, operating or technical risks, hazards or difficulties in exploration, development and mining activities; inadequate insurance, or inability to obtain insurance; availability of and costs associated with mining inputs and labor; the speculative nature of mineral exploration and development, diminishing quantities or grades of mineral reserves as properties are mined; the ability to successfully integrate acquisitions; risks in obtaining necessary licenses and permits. Although the Company has attempted to identify important factors that could cause actual results to differ materially from those contained in forward looking statements or information, there may be other factors that cause results to be materially different from those anticipated, described, estimated, assessed or intended. There can be no assurance that any forward looking statements or information will prove to be accurate as actual results and future events could differ materially from those anticipated in such statements or information. Accordingly, readers should not place un due reliance on forward looking statements or information. the company does not intend to, and does not assume any obligation to up date such forward looking statements or information, other than as required by applicable law. We Seek Safe Harbor.

Company Profile - Capital Structure and Key Information

2020 Q3 Cash and cash equivalents 3.

2020/1/2

Company Profile

2020 Q3 Key Performance Indicators – The Best Results In History

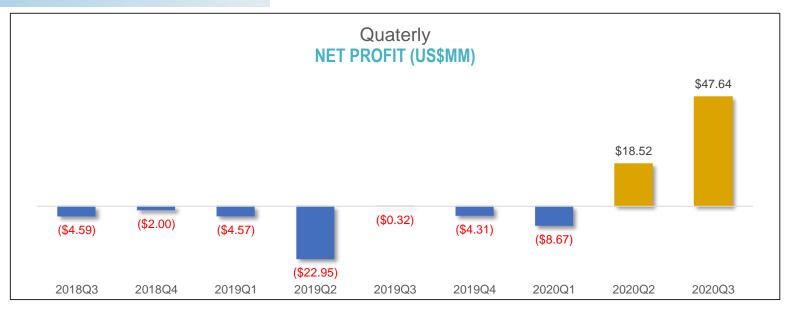

- Revenue increased to US\$240 million, representing an increase of 29% compared to the same period in 2019
- Mine operating earnings increased by 151% to US\$66.11 million, compared to the same period in 2019
- Net income increased to US\$47.64million, representing the best quarterly performance in history
- EBITDA was US\$103 million

	Q3 Ended Sep 30, 2020	Q3 Ended Sep 30, 2019	Increase/decrease for the same period in 2019
Revenues (MM USD\$)	\$240.5	\$186.4	+29% ↑
Mine operating earning (MM US\$)	\$66.1	\$26.3	+151% ↑
Net Profit (MM US\$)	\$47.6	(\$0.3)	Significant increase
Net Operating Cash Flow (MM US\$)	\$103.3	\$64.4	+60% ↑
Cash Costs – CSH (US\$/oz)	\$906	\$820	10%↑
Cash Costs – Jiama (after by-product credit) (US\$/Ib)	\$0.26	\$1.43	-82% ↓
Gold produced by CSH (oz)	40,672	43,829	-7%↓
Copper produced by Jiama (Tonnes)	22,029	18,347	+20% ↑

4

Performance Highlight

The Best Performance in History

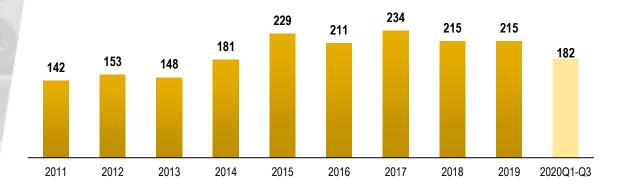

5

Performance Highlight -Excellent Track Record on Production

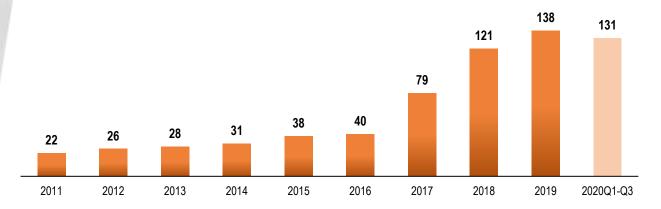

In YTD Q3 2020

- Total gold production increased by 12% to 181,671 ounces compared to the same period in 2019
- Total copper production increased by 31% to 131 million pounds (approximately 59,317 tonnes) compared to the same period in 2019

COMBINED GOLD PRODUCTION (K oz)

COPPER PRODUCTION (MM lbs)

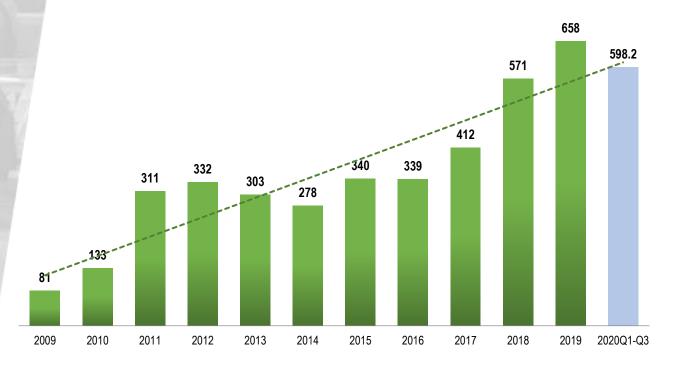

Performance Highlight -Substantial Revenue Growth Leader

Revenue's compound annual growth rate reached **20%** for nine months ended Sep 30, 2020

2020 Revenues shall exceed 2019

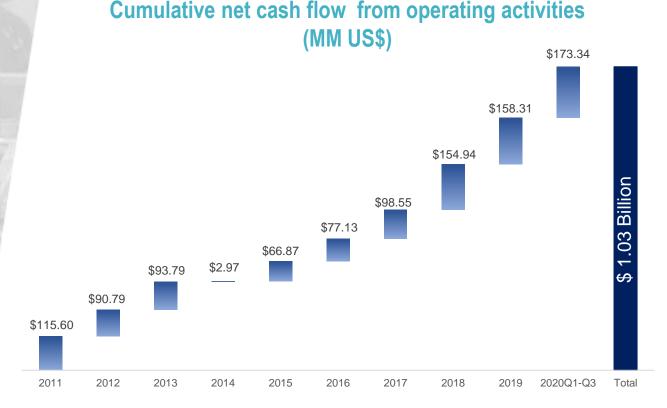

CGG REVENUES FROM 2009-2020 (US\$MM)

Performance Highlight – Continuously Strong Operation Cash Flow

Cumulative operation cash flow of \$1.03 billion since 2011

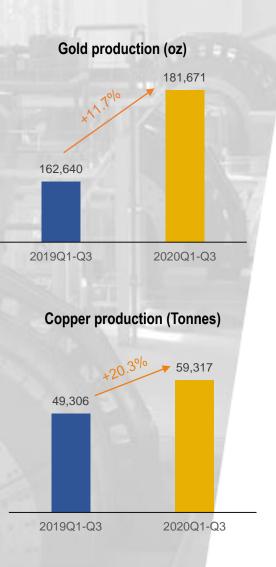

Cash Balance \$296 million on September 30, 2020

 For the first three quarters 2020, net operating cash flow increased to US\$173 Million, representing an increase of 36% compared to the same period in 2019 and more than any year in history.

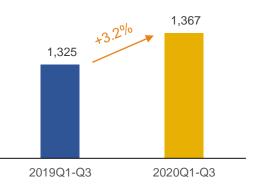

Performance Highlight

Production Increases While Effectively Controlling and Reducing Costs

CSH gold cash costs (US\$/OZ)

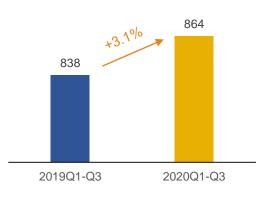

Jiama copper total costs (US\$/LB) 2.23

2020Q1-Q3

2019Q1-Q3

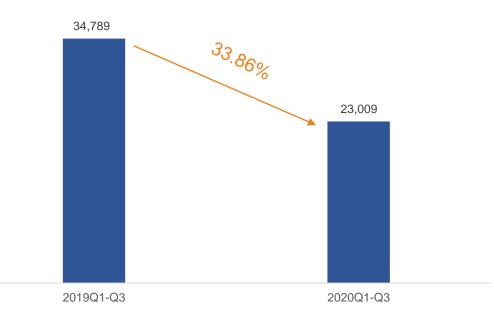

Performance Highlight

Improving Management Skills, Continuously Reducing Management Costs

- General and administrative expenses in YTD Q3 2020 decreased by 33.86% compared to same period last year. Management optimization, cost reduction and efficiency enhancement are improving.
- The government fully support enterprise and employees return to operation, and grant social and financial reliefs.

General and administrative Expenses (US\$ 000)

Company Strength – Strong Investor Backing

BBB Credit Rating by S&P

Closed to 50 Producing Mines And 6 Refineries

1940 Tonnes Gold Resources

40.3 Tonnes Gold Production In 2019

About China National Gold Group (CNG)

A strong national platform in China's gold industry

China's Largest Gold Conglomerate Chair Member of China Gold Association

Complete vertically integrated business chain

Exploration / Mining / Processing / EPC / Research with patents / Jewelry design / Retail

A global mining player

- Member of World Gold Council (Chair Member of China Chapter)
- Global mineral resources portfolio
- Major Shareholder in both international and domestic listings

TSX and HK Stock Exchanges: China Gold International (CGG) / 2099 Shanghai Stock Exchange: ZhongJin Gold (600489)

Unparalleled financing capacity

Ability to raise sizable financing at low cost / Strong ability to resist risk / Investment grade credit rating

Company Strength – Comprehensive Support From CNG

Liangyou Jiang

China National Gold Group Vice President China Gold International Resources Corp. Ltd. Chairman of The Board & CEO

Technical Management Support

- Overcome technical problems, effectively improved operational efficiency and achieved world-class management standards with help from CNG.
- Relying on CNG's procurement network and channels, became more capable of negotiating with suppliers to ensure stable supply with cost and quality advantages.

Overseas M&A Support

- CGG has the first priority to acquire overseas mineral properties; overseas mines operates by CNG are given priority for injection into CGG.
- Working with CNG's resource information channels and professional M&A team, CGG actively looking for resources along "The Belt and Road Initiative" to enhance the success rate of overseas resource M&A activities.

Financial Support

- Enjoying quota cuts, preferential interest rates and financial products under CNG's comprehensive strategic cooperation with a number of financial institutions.
- Benefit from China Gold Finance's competitive interest rates on deposits and loans.
- Access to capital support from State owned investor/stockholder.
- CNG provides a letter of support for CGG for the bond issue.

Good relationship with local government

 With the backing of China's Largest Gold Producing Conglomerate, it was easy for CGG to maintains smooth and efficient communication with the local government and regulatory authorities, and enjoys many policy benefits.

. 12

Company Strength – Investment Grade Rating

China Gold International's Rating China National Gold Group's Rating

BBB Outlook: Stable

- Company with a rating of BBB- or better are considered "investment-grade."
- Only 9 gold companies in the world have BBB- or better ratings, in which 5 gold companies have BBB rating.

Company Strength – Ability to Raise Sizable Financing at Low Cost

June 2020 - US\$300 MM Bond Issue

- Third time CGG has successfully managed a bond offering in the international capital markets
- Financing costs were significantly lower than the market average
- Unsecured bond

April 2020 – RMB 1.4 Billion (~ US\$198 MM Loan Facility)

- Secured by Jiama's mining rights
- No repayment until October 2020
- Term: 14 years

Date	June 23, 2020
Credit Rating	BBB-
Price	99.886%
Coupon	2.80% per annum
Maturity	June 23, 2023
Use of Proceeds	Repaying existing indebtedness & general corporate purposes
Coordinators	Bank of China (Hong Kong), China International Capital Corporation, China Construction Bank (Asia), Citigroup, Guotai Junan International, Shanghai Pudong Development Bank Hong Kong Branch, Silk Road International, Standard Chartered Bank.

Date	April 28, 2020
Rate of Interest	2.65% per annum (at time of issue) National Interbank Funding Center's 5 year LPR - 200bp
Repayment	April 2034
Use of Proceeds	Jiama Mine
Syndicated banks	Bank of China, Agricultural Bank of China

Operation – 2020 Corporate Operational Plan

2020 Production is Expected to Exceed Annual Production Guidance

- Projected copper production over 145 million pounds (Completed 90.3%)
- Projected gold production over 210,000 ounces (Completed 85.5%)
- □ Increase ore grade and recovery rate while further improves cost control, create the best performance
- □ Strive to develop deepen resources over boundary of CSH
- □ Aggressively looking for potential acquisition targets

NOTE:

- Both Mines are located in the area that had not experienced large COVID-19 outbreak, Employees have returned to the mine sites following the schedule. Both mine sites are using handheld sensors to take the temperatures of staffs in response to the COVID-19 outbreak; proper PPE is distributed to staffs.
- Mine sites experience little to no impact from novel coronavirus the company will regularly monitors the health of its employees and its supply chains.

Operation – **Overview of Jiama Mine**

Jiama Polymetallic Mine One of China's largest Polymetallic Mines

COMMODITIES

Copper, Gold, Silver, Zinc, Lead and Molybdenum

LOCATION 68 km NE of Lhasa, Tibet

A

MINE OPERATION Open pit and underground

PROCESSING CAPACITY 50,000tpd

MINE LIFE Over 30 years

Operation – **Jiama Drilling Program**

 The mineralization interceptions and sample assaying of 2020 drilling will be analyzed together with 2019 exploration results to upgrade Mineral and a positive result is expected. In the third quarter of 2020, the company continued diamond drilling program, focusing on the well mineralized zones based on the drilling program in 2019. Five surface drill holes are underway, totaling 5,447 +/-m of drilling completed.

Operation – Overview of CSH Mine

one of China's largest gold mines

CSH Gold Mine

CSH MINE RESOURCES

Resources	Tonnage (Mt)	Grade (g/t)	Gold Content (Moz)
Measured	9.00	0.60	0.17
Indicated	115.70	0.62	2.31
Total M&I	124.70	0.62	2.49
Inferred	78.86	0.52	1.32

CSH MINE RESERVES

Reserves	Tonnage (Mt)	Grade (g/t)	Gold Content (Moz)
Proven	7.40	0.63	0.15
Probable	58.65	0.66	1.25
Total	66.05	0.66	1.40

Note: Northeast and Southwest pits combined data was modified as of December 31, 2019, under NI 43-101 rules

Well-established infrastructure with excellent access to roads and sufficient supplies of power, water and local labor

COMMODITIES Gold dore with

silver by-product

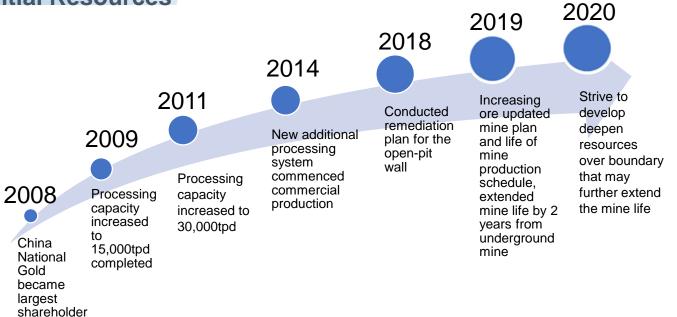

LOCATION

210km NW of Baotou, Inner Mongolia

MINE OPERATION Large-scale open pit, heap leach

Operation – Sustainable Development, Explore Potential Resources

Operation – **Optimized stable operation**

CSH Mine Production Data (Nine months ended Sep 30, 2020)

Average ore grade	0.58 Gram/Tonne
Ore mined and placed on pad	8,943,731 Tonnes
Overall accumulative project-to-date gold recovery rate	54.64%
Cash production cost	US\$846/Ounce
AISC	US\$1,105/Ounce

Production Operation – Deepen Resources Development May Further Extend The Mine Life And Improve Project Value

- At the beginning of 2020, an exploration program at the south-west pit depth was started, with six surface diamond drill holes totaling 3,300+/-m to identify and upgrade additional deep Mineral Resources, which may extend the life of mine. To date six surface diamond drill holes have been completed totaling 3,690+/-m and exceed for annual projection targets.
- An additional surface diamond drill hole of 965+/-m is underway based on the mineralization interceptions, totaling 635+/-m completed.
- In the third quarter, the other exploration program at the north-east pit depth was planned, with twenty-five surface diamond drill holes totaling 16,735+/-m and one hydrogeological drill hole of 725+/-m. Master and control geological conditions, and improve exploration of deep resources.

High Standard of Corporate Social Responsibility (CSR) and Health, Safety, and Environment (HSE)

Constantly participate social responsibility events in China and abroad, CGG obtained multiple social responsibility awards

Both mines are proud to be recognized as an industry leader, great employer and corporate citizen

- National High-tech Enterprise CSH Gold mine
- National Green Mines & Golden Digital mine Jiama mine

Accretive Acquisition Strategy

CGG has always chosen its targets carefully and has the support from its substantial shareholder:

- 1. Promise priority injection into CGG
- 2. Have the advantage of quick financing, rapid construction, quickly reaches commercial production, achieves designed capacity fast

TARGET PROJECT PHASE

- Mines at operating stage with ramp-up plan or near production
- High quality mine assets under development stage

GEOGRAPHY

- Established mining jurisdictions
- Stable political environment

METAL

- Gold and Copper focus
- Polymetallic mineral resources

TRANSACTION STRUCTURE

Flexible transaction structure: equity participation, holding or joint venture
